🧠 Professional Summary

Motivated Frontend Developer with 1 year of hands-on experience building responsive, user-centric web applications using React.js, Redux, and Tailwind CSS. Proven track record in delivering scalable UI solutions at companies like Sutherland and Webilicious. Strong collaborator with a focus on performance, accessibility, and clean code.

💼 Experience

Associate - Software Developer (Frontend)
Sutherland | May 2024 – Feb 2025

- Built a Customer Support Dashboard using React.js and Redux.
- Integrated REST APIs and implemented role-based access control.
- Improved performance and reduced response time by 20%.

Frontend Developer
Webilicious | Feb 2023 – June 2023

- Developed and maintained multiple web interfaces using React.js, Context API, and Tailwind CSS.
- Translated UI/UX designs into functional, responsive code.
- Collaborated with backend developers to integrate REST APIs.

Project Trainee
V-Guard Industries | 2022

- Developed a learning module using WordPress and integrated a React.js-based UI alternative.
- Participated in project planning and code reviews.

🧠 Projects
